**REPORT OF FOREST FIRE WARDENS**

Season of 1953:

In spite of the dry weather the past season, the driest in many years, we were fortunate enough to not have any fires of any consequence in this vicinity. Two small roadside lunch fires which the makers failed to quench sufficiently. Fortunately these were caught in time so that no damage or expense were incurred.

There were 14 permits issued for fires, 12 of these were for rubbish and waste gathered around door yards and buildings, 2 for camp fires. In all of the 14 Northeastern states New Hampshire ranks first in average acres burned per fire. A record to be proud of. Without the cooperation of the public this would not have been possible.

BERT BRAUN,  
Town Warden.

E. R. Buckley,  
District Chief.

**REPORT OF THE  
SUPERINTENDENT OF SCHOOLS**

---

To the School Board and Citizens of Errol:

I have the pleasure of submitting my second annual report as Superintendent of Schools in Errol. Financial data in this report is based on the fiscal year July 1, 1951 to June 30, 1952 but statistical data and other information is based on the present school year, 1952-1953.

In a series of meetings, conferences and telephone conversations culminating in a special district meeting held July 21st, the district was advised it was very doubtful that the high school would be approved. The district was further advised that if the high school was not approved the district would be liable for tuition cost for students attending approved high schools up to the average cost of such instruction throughout the State.

With this information before them parents of six out of the eight young people eligible to attend ninth and tenth grades elected to attend other schools. A list of tuition pupils is in another part of this report.

Parents of two students elected to abide by the provision of "further instruction" as noted in Article 28 under Chapter 138 of the State law. As was pointed out at the special meeting, and on numerous occasions since these two pupils are not receiving and will not receive credits that will be readily acceptable to most approved secondary schools.

At the time the 1953-1954 budget was being prepared the Board received a letter over the signature of the Commissioner of Education, Dr. Buley, advising that approval of the Errol High School would be withheld effective July 1, 1953. A copy of this letter is published with this report. Acting in accordance with this advice the School Board has

prepared a budget to meet the needs of a program which assumes that there will be conducted a school of eight grades in Errol, and which provides for payment of tuition for which the district is legally responsible.

It has been suggested that the district pay all or part of the transportation of these high school students, or board in lieu of transportation. It would seem that this is a decision for the district to make but the Board, in answer to requests, has included an Article in the Warrant in order that the matter will come before the annual meeting.

It will be noted that the above matters should be of interest to every resident of the district. It is hoped that there will be good attendance at the annual meeting so that these matters may be acted upon for the best interest of the children.

The interest of the parents, the help and the support of the school board members and the professional loyalty of the teachers is much appreciated. It has been a pleasure to share in the school work in Errol. Thank you for this opportunity to report.

Respectfully submitted,

HOWARD D. FOWLIE,  
Superintendent of Schools.

(Copy of Letter from the Commissioner of Education)

State House, Concord  
February 2, 1953

Mr. Howard D. Fowlie,  
Superintendent of Schools  
Groveton, New Hampshire

Dear Mr. Fowlie:

Acting in the best interests of the pupils involved, you are hereby advised of the State Board's decision to withhold approval of the Errol High School effective July 1, 1953.

Although the sentiments of the people of the district are appreciated in this situation, it must be realized that even with excessive costs per pupil, a high school of ten to fifteen pupils simply cannot offer adequate educational opportunities to meet the individual needs of the boys and girls.

Since you and the School Board were given notice some months ago of the impending action of the State Board, you have undoubtedly made plans to transport these pupils to a neighboring high school. I shall be glad to have you call upon the Department of Education if there is anything we can do to help you make the proper arrangements. I know you will appreciate the responsibility of the State Board to guarantee that each pupil in the state secures an adequate education.

Sincerely,

(Signed) HILTON C. BULEY,  
Commissioner of Education.
